

INSTRUCTION MANUAL

WiFi Switch

QS-WIFI-S03-EU

DESCRIPTION

The WiFi Switch is designed to replace the traditional switch, it keeps the function of physical switch, and allows the device connected to it to be controlled via a smartphone APP.

THINGS TO KNOW BEFORE USE

- 1) Make sure your router is configured to 2.4G, and your smartphone succeeds to connect to this 2.4G network.
- 2) Make sure the WiFi signal is strong.
- 3) Make sure the "AP isolation/Access point" function of your router is deactivated.

TECHNICAL DATA

- Voltage : 220-240V AC
- Max. Load : 2300W/250W for LED
- Operation frequency : 2.4 GHz - 2.4835 GHz WIFI
- Operation temp : Ta: -20°C - +50°C
- Case temp (Max) : Tc: +80°C (Max.)
- Operation range : ≤200m
- Dimension(WxDxH) : 86x86x34.5 mm
- IP rating : IP20
- Warranty : 3 years

FAQ

Q1: What should I do if I can't configure the switch module?

- a. Please check whether device is powered on.
- b. Make sure your mobile and switch module are under the same 2.4 Ghz WIFI network.
- c. Whether it's in good internet conditions.
- d. Make sure the password entered in App is correct.
- e. Make sure the wiring is correct.

Q2: What device can be connected to this Wi-Fi switch module?

Most of your household electrical appliances can be, such as lamps, laundry machine, coffee maker, etc.

Q3: What happens if the WiFi goes off?

You can still control the device connected to the switch module with your traditional switch and once WiFi is active again the device connected to module will connect automatically to your WiFi network.

Q4: What should I do if I change the WiFi network or change the password?

You have to re-connect our Wi-Fi switch module to the new Wi-Fi network accordingly as per the App User Manual.

Q5: How do I reset the device?

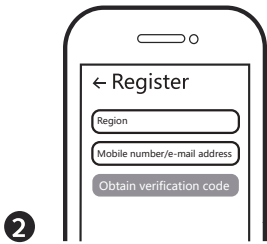

Power on/off device 5 times until the beeper on the module sound continuously.

APP USER MANUAL

1 IOS APP / Android APP

Scan the QR code to download Tuya Smart App, or you can also search keyword "Tuya Smart" at App Store or Googleplay to download App.

2

Log in or register your account with your mobile number or e-mail address. Type in the verification code sent to your mobile or mail box, then set your login password. Click "Create Family" to enter into the APP.

3

After the wiring of switch module is done, press the traditional switch to turn ON/OFF cycle for 5 times (keep time interval not too short) until the beep sound continuously for pairing mode.

4

Open the APP, selecting "+" on top right to add device. Choose the type of device, for example "Smart Lighting".

5

Make sure your smart phone and Wi-Fi switch module are under the same Wi-Fi network at 2.4GHz connection. Confirm when the beep sound continuously for pairing mode.

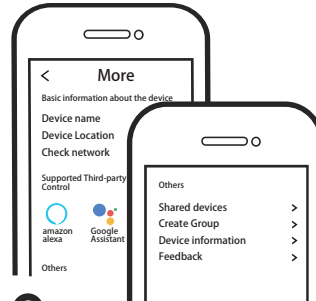

6

The pairing will take about 10-120 seconds to complete depending on your network condition.

7

When pairing is done, the Wi-Fi switch will be shown on the App.

8

Connect to amazon alexa or Google Assistant for voice control, or share the devices with your families or friends.

9

Enjoy your smart life of home automation for lighting control by using our All-in-one mobile app wherever you are in the world or simply by voice control when you are sitting at home comfortably.
